OVERVIEW

The Civil Engineering Completed Risk (C.E.C.R) insurance is a specialized annual cover arranged for operational risks. Items that can be insured include expressways, highways, bridges, tunnels, railway tracks, ports, wharfs, and breakwater structures and pipelines. It is arranged and renewed on a yearly basis. The best practice in coverage and how claims are handled will be presented in this programme.

Case studies will also be used to educate participants on how this policy is used to insure completed highways and related infrastructure works. The trainer is an experienced engineer from the insurance industry based in Singapore and he will share his enormous experience with the participants.

A guest speaker is invited to present a specialist topic related to this coverage.
