MII Training

Medical Claims & Cost Containment

23 & 24 September 2024

In-Person Training

OVERVIEW

Medical Claims & Cost Containment is a comprehensive course designed to provide a deep understanding of the intricacies involved in processing medical claims and implementing effective cost containment strategies. This course delves into the fundamental principles of medical billing, coding, and documentation – knowledge and skills required of insurance professionals to navigate the complex landscape of healthcare reimbursements. With a focus on accuracy, efficiency, and compliance, this course empowers professionals in the healthcare industry to proactively manage medical claims while ensuring sustainable and cost-effective healthcare practices.

TARGET AUDIENCE

- Insurance Associations, i.e. LIAM/PIAM/NIAM/MTA
- Insurance Agents from Life/General/Takaful Operators
- Life/General/Takaful Operators Personnel, i.e Life & Medical Claim Assessors, Life and Medical Underwriters, Risk Management Personnel, Actuarial Personnel, Employee Benefits and Medical & Health Insurance Marketers
- Insurance Brokers/Adjusters
- Owner/Employer of employee benefits scheme
- Anyone who wishes to gain insight into Medical Claim Management and Cost Containment

LEARNING OUTCOMES

At the end of the programme, participants should be able to:

- Provide a better understanding of medical claims management and cost containment.
- Gain insight into the impact of uncontrolled medical insurance claims on the insurance industry.
- Comprehend types of medical claims fraud commonly committed by medical & health insurance claimants and medical providers.
- Appreciate and understand claims case studies.
- Share and discuss medical and health insurance claims issues faced by the medical and health insurance fraternity.
