

**Exemption Guidelines for Life Insurance
Administration and Management Programme (LAMP)**

A. Policy on Eligibility Criteria

1. To request exemption, you must complete the exemption form. Please note that Aii only processes exemption requests of students registered for Life Insurance Administration and Management Programme (LAMP).
2. You must submit all the required documents with your application within the deadline specified for processing. If additional information is required, you must submit it within the deadline. Otherwise, you will have to submit a new application.
3. Aii will award all exemptions based on the scope and standard of information submitted with the application. Aii policy is to award exemption for subjects that are within the Aii qualification framework at the time of application.
4. Your non-Aii examination or qualification must match the learning outcomes of a current LAMP subject syllabus, depending on the exemption you are applying for.
5. The assessment method of the non-Aii examination or qualification must be of a similar standard and scope to the Aii examination unit / subject.
6. In the case of LAMP, students/examination candidates with partially completed qualifications from the Life insurance-related industry are eligible for exemptions.
7. You may be granted exemption for LAMP subjects on case basis for applications received based on professional (working experience) and academic qualifications which, in the opinion of the Academy Quality Assurance Committee (AQAC) and Academic Council (AC), are of equivalent standard and scope.
8. **Practical Experience Eligible for Exemption:** You may be granted exemption for LAMP subjects on case basis for applications received with a minimum of 3 consecutive years in either Legal functions or Life Insurance Accounting and Reporting in a single life insurance organization within the last 10 years.
9. An exemption does not alter the Aii qualification completion rules which must be complied with in order to be awarded with an Aii qualification.
10. If misleading information or fraudulent documents are submitted, Aii will withdraw the exemption. In this case, Aii will take disciplinary action against the applicant concerned.

	<ol style="list-style-type: none"> 11. Aii will not award exemptions based on exemptions awarded by other organisations. Aii will, however, review the potential based on original qualification. 12. Changes to Aii Qualification Framework: The Aii framework is evolving in response to the regulatory environment, changes in education regulation standards and customer need.
