OVERVIEW

Geopolitical events can disrupt supply chains, property, projects, shipping, business operations and claims. This practical workshop helps you understand how geopolitical risks affect insurance coverage and claims, and importantly, what organisations can do to minimise their financial and insurance impacts

LEARNING OUTCOMES

By the end of this programme, participants will be able to:

1. Identify key geopolitical risks and understand how they can affect businesses, asset values, supply chains and insurance exposures.
2. Examine the insurance implications of war and warlike risks, political violence, terrorism, sanctions and tariffs.
3. Analyse how geopolitical events can affect property, business interruption, marine, and construction & engineering (including DSU) insurance.
4. Evaluate potential coverage issues arising from exclusions, causation, sanctions, supply chain disruptions and claims settlement.
5. Develop practical risk mitigation strategies.
6. Apply practical approaches to minimise the financial impact of geopolitical events.
